Contact Info: +962-7997-3638-2 | Amman, Jordan | yazeedmshayekh.work@gmail.com | Linkedin | Github | Yazeed_Mshaykeh

---

AI Developer with **hands-on experience** developing end-to-end machine learning applications. Specialized in **Natural Language Processing** (RAG and AI Agents) and **Computer Vision**, leveraging **Python**, **web frameworks**, and a set of **other Python frameworks** to build intelligent systems. Committed to deploying cutting-edge AI models as scalable, real-world solutions.

Education

Bachelor's Degree in Data Science, *University of Jordan*, Amman, Jordan, 2020- 2024
GPA: 3.61/4.00 - *Very Good*

Work Experience

Entry-level AI Engineer May 2025 – Present
Barzan – Doha Insurance Group On-site

- **Developed Agentic-Based AI systems** for document processing and multilingual support using **different LLMs**, and **RAG** to ensure high accuracy in insurance workflows.
- **Built and deployed secure web apps** using **FastAPI** and **Docker**, implementing **Langsmith** and **Grafana** to actively monitor model performance and system health, while using **Langcache** for keeping **the high performance** and **Low Cost** in **production**.

Training Experience

Data Science Training Program September 2024 – February 2025
Tahaluf Al Emarat Technical Solutions LLC Remote

- Completed an intensive **36-week Data Science program**, strengthening **Linear Algebra** and **Probability** foundations while applying **Pandas**, **NumPy**, and **TensorFlow** to complex data problems.

Tech For Jobs Fellowship at Data Analytics Training Program October 2024 – January 2025
Correlation One Remote

- Completed an **18-week Data Analytics training**, solving real-world business cases using **Python**, **SQL**, and **Excel**, while building dynamic **Tableau dashboards** for actionable insights.

Projects

Attendify – Computer Vision | *Automated Attendance System*

Achieved **99.7% facial recognition accuracy** using **YOLOv9** and **ResNet-50**, deployed via **Flask** with a responsive web frontend.

CoreReports – AI Agents & Analytics | Automated Dynamic Reporting System

Automated dynamic reporting AI-powered system using **CrewAI** and **Chart.js** to replace manual Tableau workflows, optimizing performance with **LangCache** and **Grafana**.

SilentVoice – Natural Language Processing | *Real-time American Sign Language Translation*

Built real-time **ASL-to-text translation** using **Transformer** and **Conformer** architectures, deployed via **Gradio** for live gesture recognition.

Prometheus – Natural Language Processing | *AI-Powered Insurance Policy Analysis System*

Developed a secure **RAG insurance assistant** using **Qdrant** and **Multi-Query Retrieval**, built with **FastAPI** and **Guardrails** for policy analysis.

Rover – Vision Language Models | *OCR System*

Built a structured **OCR system** using **Qwen2.5-VL** to extract data from IDs and receipts, featuring a customizable **Flask** backend.

Odyssey – Computer Vision | *Car Damage Detection System*

Engineered a **car damage detection** system using **Mask R-CNN** and **Few-Shot ResNet18** for precise multi-label classification.

Courses

Deep Learning Specialization
DeepLearning.AI and Stanford University

Machine Learning Specialization
DeepLearning.AI

Mathematics for Machine Learning and Data Science Specialization
DeepLearning.AI

TensorFlow Professional Certification
DeepLearning.AI

Achievements

First Place
Organized by the STEAM Center in collaboration with Arab Robotics Association
First Place
The 11th National Technology Parade 2024.

SKILLS

- **Generative AI & LLMs:** AI Agents, RAG, Fine-Tuning, VLMs, LangChain, CrewAI, LangSmith, Guardrails, Prompt Engineering.
- **Data Science & ML:** TensorFlow, Predictive Modeling, OCR, MLFlow, Data Preprocessing, Quarto, Tableau.
- **Python Development:** FastAPI, Asyncio, Pydantic, Selenium, BeautifulSoup4, SerpAPI.
- **Databases**: Qdrant (Vector DB), MongoDB, Redis (Langcache), PostgreSQL
- **Programming Languages:** Python, SQL (Oracle DB), (HTML, CSS, Javascript).
- **DevOps & MLOps:** Docker, Docker-Compose, Grafana, Prometheus, Loki, Tempo, Git/GitHub, Ubuntu.
- **Languages:** Python, SQL, HTML/CSS/JavaScript.

Languages

Arabic | *Native – Mother Tongue*
English | *Very Good*
